

RETRIEVABLE SEAL BORE PACKER

Description

The Select Retrieval Seal Bore Packer combines the features of a Wireline Set Packer with the versatility of a Retrieval Packer and is mainly used in production and testing applications.

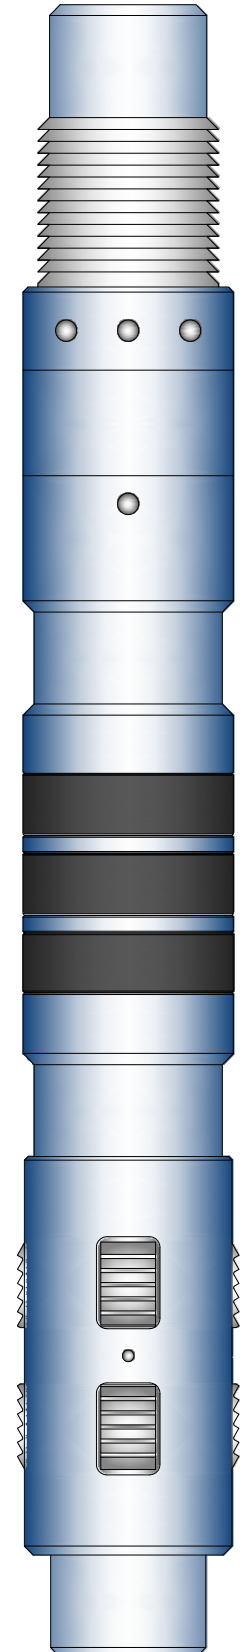

The packer may be used as a temporary Bridge Plug when run with a Nok-Out Assembly, and then converted for production or testing. The dependable three element Pack-Off System ensures reliable sealing, while the stream lined design allows for fast running.

Applications

- Production Packer.
- Tail Pipe Extension (with tubing hung from seal assembly)
